Blackboard Calendar
Blackboard has its own calendar tool that is available by clicking on the word Calendar in the Navigation Panel. Most importantly, the Blackboard calendar can show you approaching due dates for all assignments in all your courses. In some courses, instructors may add other course-related activities to the calendar. You can also add your own activities.
Click the Schedule button to see activities and due dates for a given day or month.
Click the Due Dates button to see just a list of items that are due or will be due soon in all your courses.
